9

Flexibility, reliability, and advanced security 

"A new software just released to help streamline my firm's admin? Great!"
"Oh, I have to come into the office to use it? Scrap it."

10

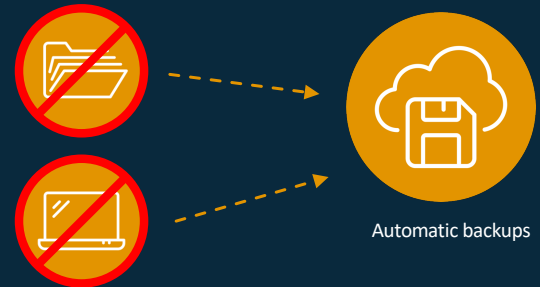

Security 

- > 4 out of 10 UK businesses suffered a cyber-attack or data breach in 2021
- > A data breach can cost a business an average of £8,460

11

Backs up your data to the cloud 

Automatic backups

12

Flexibility 

- It's a hassle to maintain and update desktop-based systems

13

Flexibility 

- Work simultaneously from any location with cloud software
- Real-time changes as you work

14

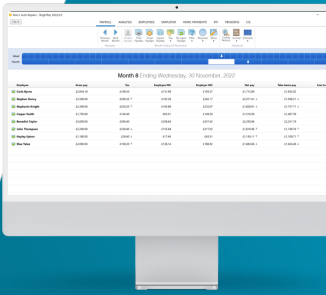

Differences between BrightPay's desktop and cloud solutions

15

Advantages of BrightPay for Windows or Mac 

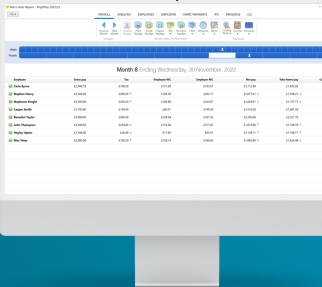

- Don't need to be connected to the internet
- Desktop-based software may be faster and more responsive
- You don't have to worry about downtime due to data centre power outages

16

Are there any disadvantages?

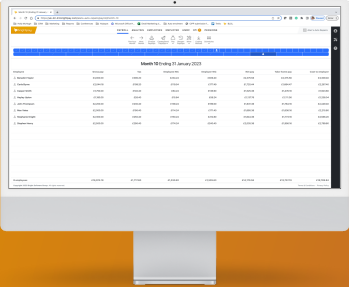

- You will need to manually back up payroll data
- Doesn't offer the same flexibility when it comes to working from anywhere
- Updates are manual
- Multiple users cannot work on the same file at the same time

17

Advantages of BrightPay's cloud payroll solution

- Can be accessed from an internet browser
- No downloading or updating the latest versions
- Multiple users can work on the same file simultaneously

18

Benefits of BrightPay's cloud payroll solution

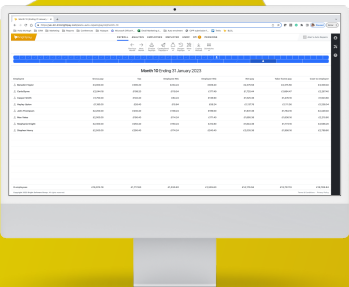

- Access from any device can improve productivity
- Files won't be corrupted, deleted or lost
- Your data will be stored on a server at a data centre, hosted by Microsoft Azure

19

Are there any disadvantages?

- Cloud can go through events like power outages, server reboots, delays, and downtime
